

DCR Medical Grant Writing Program for Clinicians

Designed for clinicians who would like to enhance their skills regarding applications for grant funding for clinical research projects, the DCR Medical Grant Writing Program offers an intensive program focused on planning, writing, developing, and revising scientific grant application materials written in English.

Through a blend of virtual and in-person consultations and workshops [and optional virtual *schreibstunde* or a weekly writing hour on (most) Thursdays], the DCR Medical Grant Writing Program requires a total time investment for consultations and workshops of around 10 hours over 6 months [June 15–December 14, 2023].

The Program kicks off with the 45-minute Consultation 1 on either Thursday, June 15 2023 or Friday, June 16 and concludes on Thursday, December 14 at sitem-insel. Program organizers expect full commitment from participants, including attendance at scheduled events for the DCR Medical Grant Writing Program.

To apply, please complete the [DCR Medical Grant Writing Program Application](#) by May 19; expect application decisions by May 23.

For questions, please contact Nadha Fowzul Nizar (nadha.fowzul@unibe.ch).
